1. Introduction

As required by the Municipal Systems Act(Act 32 of 2000), each municipal council, within a prescribed period after the start of its elected term, must adopt a process set out in writing to guide the planning, drafting, adoption and review of its Integrated Development Plan (IDP). The IDP is a strategic plan that guides and informs all planning processes, activities, decision making, budgeting and management in the municipality. According to Section 34 of the Municipal Systems Act (Act 32 of 2000) a municipal council must review its IDP annually.

IDP Review is the assessment and evaluation of the Integrated Development Plan and municipal performance. To facilitate the review procedure a Process Plan is required to be developed . The Process Plan outlines how the process will unfold (ie. the planning process to be undertaken, organisational structures and the distribution of roles and responsibilities etc) in the review process.

The review of the 2020/2021 IDP will inform the Municipal Performance Management and Monitoring(PMS), the Built Environment Performance Plan, Spatial Development Framework and the Medium Term Expenditure Framework (Budgets).

The municipality will also prepare a Service Delivery and Budget Implementation Plan(SDBIP) as an implementation tool as stipulated in the Municipal Finance Management Act of 2003 to be approved by the Mayor of the municipality in terms of sections 53 (1) (c) (ii) for implementing municipal services and its annual budget.

The core components of the IDP as indicated in Section 26 of the Municipal Systems Act(Act 32 of 2000) are :

- a) the municipal council's vision for the long term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs;
- b) an assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to municipal services;
- c) the council's development priorities and objectives for its elected term, including its local economic aims and is internal transformation needs;
- d) the Council's development strategies which must be aligned with any national or provincial sectoral plans and planning requirements binding on the municipality;
- e) the spatial development framework which must include the provision of basic guidelines for a land use management system for the municipality;
- f) the council's operational strategies;
- g) applicable disaster management plans;
- h) a financial plan, which must include a budget projection for at least the next three years; and
- i) the key performance indicators and performance targets determined in terms of Section 41.

Section 28 of the Municipal Systems Act 32 of 2000 requires the following form each of the Municipalities:

1. Each municipal council, within a prescribed period after the start of its elected term, must adopt a process set out in writing to guide the planning, drafting, adoption and review of its integrated development plan.
2. The municipality must through appropriate mechanisms, processes and procedures established in terms of Chapter 4, consult the local community before adopting the process.
3. A municipality must give notice to the local community of particulars of the process it intends to follow.

2. Process of Reviewing the IDP

The municipality has produced an integrated timetable of activities which includes the IDP, Budget, Performance Management and annual reporting. The extract below is relevant to the IDP process and the full integrated timetable is attached as an annexure.

- Develop sector business plan;
- Develop the SDBIP.
- Amend Scorecard where necessary

Full Council

- Consider and adopt the process plan and reviewed IDP;
- Ensure integration of IDP, the Performance Management System(PMS), and the budget

4. Role of External Stakeholders

External stakeholders play an important part in the review of the IDP. The Process Plan indicates the public participation process for the review. The public participation process is varied and includes ward level participation to regional hearings with both written and verbal comments accepted. Call for public comments and advertisements of the stakeholder meeting would be advertised in the local newspapers. Copies of the IDP document would be made available electronically on the municipal website and hard copies would be placed in all municipal offices,

libraries and customer care centres. Should stakeholders request copies of the IDP, where possible these would be made available to them preferably in electronic format. The municipality will also produce simplified copies in English and IsiZulu of the adopted 2020 /21 IDP which is a summary of the full technical IDP. Regional IDP and Budget hearings will be hosted in the municipality, these hearing are both in IsiZulu and English, copies of the presentation are available at the meeting. The Mayor will also consider hosting an IDP festival as part of the participation process. Further interaction with the public on the IDP will be via, Mayoral Imbizo's, fortnightly municipal news supplement and where possible mayoral talk shows. The municipality is currently addressing the need for community based planning. Facilitators have been trained and a roll out program is currently being developed through the public participation unit.

The External Stakeholders are :

- Traditional leaders
Traditional leaders are represented at Full Council meetings where the IDP is presented. Community mobilisers are also fully aware of the contact details of the traditional leaders for the dissemination of information. The Mayor's Office has dedicated staff that handles all issues relating to participation matters with the traditional leaders.
- Civil Society
A detailed stakeholders database has been developed of civil society organisations. These organisation will be informed of the IDP reviews and requested to make formal comments. Comments in written or verbal(through presentations) would be accepted.
- Cross Border Municipalities
The municipality has began a process to engage with cross border municipalities, through these existing structures the municipality will engage on IDP matters.
- National and Provincial departments
A sector forum has been setup for inputs into the IDP process. The IDP team has engaged with the department on a one on one basis to extract information required for the IDP process. Of particular importance is the engagement with Province on the PGDS
- State Owned Enterprises
State owned enterprises also for part of the sector department engagements. However due to the municipalities involvement with the SIP 2 projects, closer engagement have been held with Transnet.
- Chamber of Commerce
The IDP office has identified organised business as a key stakeholder in the development of city strategy, as such the process allows for engagement with the Chamber of

Commerce and Business. The engagement would be in form of presentations to the leadership and members.

Community Based Planning

Council has commenced with the CBP participation process throughout the 110 wards. Currently a percent of ward plans is being reviewed. The process would be rolled out with the remainder of the wards and the details from these plans would be used to input into the IDP process. The process is due to be completed by the end of this calendar year **of 2019**.

The strategic approach to the development of the Municipality is underpinned by strategic global, national and regional policy. The objectives of these policies have influenced the development of the strategic direction of the Municipality. Whilst we have assessed and identified key policies, the most recent and relevant developmental policies (as depicted in the diagram below) - Sustainable Development Goals, National Development Plan, Service Delivery Agreement Outcomes, Medium Term Strategic Framework 2015 – 2019 in developing the 2020/21.

City Planning Commission

The eThekweni Municipality recently established a City Planning Commission, the first in the country, which is an advisory body appointed by Council to propel the Municipality’s long term vision and strategic plan. The formation of the Commission is also part of the City’s institutional transformation, in an endeavour to strengthen and build an efficient administration. The main

objective of the Commission is to guide the Municipality on a range of issues pertaining to the development of its long term growth and development strategy. This strategy is aligned to the strategic objectives and targets of the National Development Plan and the KZN Provincial Growth and Development Strategy.

DURBAN' RESILIENT STRATEGY

eThekweni Municipality's first Resilience Strategy was the product of a four year consultative process with a broad and diverse group of stakeholders, and was originally initiated through Durban's participation in the international 100 Resilient Cities Programme. Durban's Resilience Strategy was formally adopted by the eThekweni Municipality Council in August 2017
